It is composed of:

- Two entrances;
- Security lock with appropriate key supplied;
- One internal rod for the positioning and fixing of the rodenticide/virtual bait;
- Spacer;
- Internal removable tray

Trap size:

- **Length:** 230 mm
- **Width:** 125 mm
- **Height:** 73 mm

Colour: As in the picture

InVerde products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

TECHNICAL DATA SHEET

5. HOW TO USE:

Place Coral in the following places:

- Green areas, where the presence of overgrown grass is particularly appreciated by rodents;
- Near gardens, green houses and grasslands;
- Along the external perimeter of food industries;
- Inside storehouses;
- In the back of supermarkets;
- In waste collection areas;
- Near cable trough and electric boards, dishwashers, doors and slots, lofts, storehouses, producing departments, cellars, garages, workshops, etc.;
- Along the rooms perimeters to be disinfested and along both the rodent habitual paths, which can be identified through excrements, fur, dens, paw prints, etc..and the crawling insects ones;
- Along the walls;

We suggest you to give a number to each trap and indicate its placement in the monitored area plan, in order to facilitate the check during the periodic monitoring.

Theoretical covered area: at a distance of 5-10 meters the one from the other, according to the assumed pest infestation.

Suggested monitoring period: all the yearlong, especially in the period between October and April, in which it is registered peaks due to the external temperature reduction.

Suggested frequency of the controls: at least twice daily. Change the trap after two months (at the latest) or before according to the pest infestation.

The use of the trap in damp and dusty places does not reduce the product functionality over time.

Storage conditions: in a cool and dry room, temperature below 25°C and R.H. below 55%.

6. PACKAGING AND SPARE PARTS:

- Case: 6 pcs per display

7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
