

TECHNICAL DATA SHEET

1. TRADE NAME: **CORNER TRAP FOR COCKROACHES**

Liquorice flavoured monitoring device for the following target crawling insects: *Blattella germanica*, *Blatta orientalis*, *Periplaneta americana* and *Supella longipalpa*.

Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests' presence in a specific place for a defined time.

2. PRODUCT CODE: **P-04029DIN**

3. PICTURE:

4. TECHNICAL SPECIFICATIONS:

Corner Trap for cockroaches is a monitoring device (glue trap).

It is composed of:

- Cardboard (the closed trap has 4 entrances for insects) plasticized on the glue side;
- Liquorice flavoured glue;
- Attractant gel (liquorice flavoured) previously spread on the glue surface;
- White, black-printed silicon release paper, indicating the instructions for its detachment;
- Flow pack package;
- Cardboard skillet.

Trap size (open trap):

- **Length:** 194 mm
- **Width:** 135 mm

Closed trap (assembled trap):

- **Length:** 135 mm
- **Width:** 80 mm
- **Height:** 18 mm

Glue Area: 115 x 70 mm

Quantity of glue on the trap surface: 1,8 g

Colour: As in the picture

TECHNICAL DATA SHEET

InVerde products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

5. HOW TO USE:

Place Corner Trap for cockroaches in the following places:

- Near cable trough and electric boards, dishwashers, sinks, ovens, engines, doors and perimeters, moist and hot environments, and everywhere the presence of crawling insects is suspected;
- In dark areas;
- On the floor or on the wall.

Theoretical covered area: at a distance of 5 meters the one from the other, according to the assumed pest infestation.

Suggested monitoring period: all the yearlong, especially in the period between April and October, even though, in a conditioned area, insects are dynamic despite their being subjected to seasons.

Suggested frequency of the controls: weekly. Change the trap after three months (at the latest) or before according to the pest infestation or the presence of dust, water and/or damp in the environment.

The use of the trap in damp and dusty places could reduce the product functionality over time.

Storage conditions: in a cool and dry room, temperature below 25°C and R.H. below 55%. If well stored (intact packaging), the product shelf life is 3 years.

6. PACKAGING AND SPARE PARTS:

- Skillet: 2 traps in flow pack per skillet;
- Display: 12 skillets per display.

7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
