

## TECHNICAL DATA SHEET

### 1. TRADE NAME: FLY BLADE FLY TRAP

Wine flavoured monitoring device for detecting the presence of flies and fruit flies.

Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests presence in a specific place for a defined time.

### 2. PRODUCT CODE: P-04057DIN

### 3. PICTURE:

### 4. TECHNICAL SPECIFICATIONS:

Fly Blade Fly Trap is a wine flavoured monitoring device (glue trap) for flies and fruit flies. Its shape allows a perfect placement at the window, thanks to the double-sided tape placed on the glued face of the trap.

The product was patented: n. EP1331847

#### It is composed of:

- Plastic support with floral print;
- Wine flavoured hot melt glue;
- Double sided adhesive tape on the glued face of the trap;
- White silicon release paper;
- Flow-pack package;
- Cardboard skillet and display.

## TECHNICAL DATA SHEET

### Trap size (*not assembled trap*):

- Length: 140 mm
- Width: 80 mm

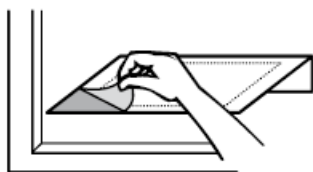

**Quantity of glue on the trap surface:** 0,6 g

**Glue area:** 55 x 110 mm

**Trap color:** as in the picture

### 1. HOW TO USE:

Place Fly Blade Fly Trap indoor, at a window in the infested room. To fix the trap, use the double-sided tape on the glued surface of the trap. The wine flavor of the trap and the light coming from the window attract the flies and the fruit flies, which remains stuck on the glue.

**Suggested monitoring period:** all the yearlong, especially between April and October, period in which it is possible to register an increase of this typology of pest infestation.

**Suggested frequency of the controls:** weekly. Change the trap after three months (at the latest) or before according to the pest infestation or the presence of dust in the environment. The use of the trap in dusty places could undermine its efficaciousness.

**Storage conditions:** in a cool and dry room, temperature below 25°C and R.H. below 55%. If well stored (intact packaging), the product shelf life is 3 years.

### 2. PACKAGING AND SPARE PARTS:

- 3 traps per skilket in transparent flow pack;
- 12 skillets per display (36 pieces).

The packaging can be customized basing on customer's needs.

### 3. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
