

TECHNICAL DATA SHEET

1. TRADE NAME: REPELLENT MOLE

Eco-friendly repellent product ready to use for moles.

Monitoring devices for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests' presence in a specific place for a defined time.

2. PRODUCT CODE: P-09067IN

3. PICTURE:

4. TECHNICAL SPECIFICATIONS:

Repellent Mole can be used inside gardens and green areas.

Its use makes the path to moles slippery and inaccessible, thus preventing the colonization of treated areas.

The product is formulated with synergistic plant extracts strengthened by the MATRIX U.B. that perform a physical barrier action.

Composition:

Aqua, Urtica dioica leaf dry extract, MATRICE U.B., Xanthan gum, Piper nigrum fruit oil, Pelargonium graveolens oil, Capsicum annuum fruit extract, Allium sativum bulb oil.

Colour: As in the picture

InVerde products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

TECHNICAL DATA SHEET
